

QUALITY POLICY

Mission

Berbetores Industrial, as a plastic materials processor through thermoforming, injection and rotomoulding techniques, has been integrating every step from designing to the final product delivery for the last 30 years.

R+D is a solid and sustainable pillar for the Organization in pursuit of becoming a reference partner in plastic parts development achieving a high degree of its customers satisfaction.

On this basis “We”, as a team, are completely involved and committed to give the best technical assessment from the very beginning.

Flexibility to adapt to our clients needs remains as one of our strengths resulting in gaining their trust. “Your problem is our concern” is a must in our philosophy and way of leading our projects.

Values

- Our clients goals become part of ourselves, taking care of their needs in the fastest and most efficient possible way.
- Training and development through a continuous improvement of our team is essential to get a good achievement.
- Ensuring sustainable development and creating a safe environment for our Team and Nature must be guaranteed.

Commitment

We are committed to keep and continuously improve the efficiency of the Quality Management System as well as every legal matter required by our partners.
